

C-PEC Is Transforming Apartment Laundry Rooms

C-PEC is helping multi-housing property owners reconsider the income potential of onsite vended laundry rooms. Onsite vended laundry rooms can be a significant source of income which can increase the value of the property. C-PEC is helping property owners design laundry rooms that will be competitive with other businesses competing for resident's laundry income. The experts at C-PEC consider several payment options for the equipment and the most efficient use of existing utilities to allow for the installation of large capacity and energy efficient equipment which increase laundry income and reduce utility overhead. Call C-PEC today at 602-248-0808 to talk about how your laundry room could become a greater source of income.

C-PEC's 3D renderings and floor plan layouts provide a realistic view of large capacity and energy efficient equipment options.
