

COIN & PROFESSIONAL EQUIPMENT COMPANY

Arizona's Premiere Laundry Store Resource

July 2009

Credit & Debit Card Payment at the Equipment Without Removing the Coin Payment Option

C-PEC is proud to offer an innovative payment system providing credit and debit payment to laundry stores. C-PEC is proud to be chosen as the exclusive Arizona distributor for this proven technology providing payment flexibility. Unlike card systems of the past this system does not force store owners to remove the coin payment option and convert the entire store to card. Store owners can choose from different levels of the card system. The credit and debit card reader can be installed on a select number of machines or all of the equipment. The full upgrade includes a laundry card system with marketing features and customer rewards. The wireless feature of the system makes installation inexpensive and quick. Each card reader acceptance terminal uses encrypted wireless communication for instant clearing of credit cards through a broadband internet connection. Please contact us today to learn more about this additional payment option to offer your customers.
