We Want Your Feedback - Social Networking Sites

The use of social networking sites for marketing is a new phenomenon that is changing the way the world advertises. Good and bad news about a business or product can spread very quickly through mediums such as Facebook, Twitter and a handful of other social network sites. Your customers may be talking about your business on social networking sites. Do you know what they are saying?

We would like your feed back,

- Do you have a facebook, twitter, linkedin or other social network account?
- If you do have an account with a social networking site which site do you use?
- Do you advertise your business or promote your services on a social networking site?
- Are you interested in learning more about how you can use social networking sites to promote your laundry and your laundry's services?
